

Sensory Solutions

Occupational Therapy for Children

Assessment Procedure

Assessments will be completed once an ongoing treatment time has been determined for a child. The assessment will take place over the course of the first 3 treatment sessions. This will be followed by a parent meeting and written report. If treatment is indicated, treatment sessions will follow per arrangement.

The fee for this service is \$1,020 and is due at the time of the first session.

Assessment session 1-3 (\$180 per session) \$540, Parent Meeting - 1 hour \$180, Written Report \$250 Total (\$1,020)

A deposit of \$100 is requested at the time the assessment is scheduled and is refundable if the appointment is canceled 1 week prior to the first appointment date.

In order to confirm the first appointment, the paperwork must be received 2 weeks prior. Please notify the office as soon as possible if this time line is not achievable.

A receipt will be provided at the time of payment to reflect the services provided and a superbill will be provided at the end of the month in a format that can be submitted to your insurance company for reimbursement.

A **diagnosis code or ICD 10 code** is required to pursue reimbursement for OT services. This code must be issued by your pediatrician and provided to us if you would like it to be reflected on your superbill. If you need further assistance with this, please talk to your insurance company in advance of scheduling your first appointment or contact Teri Jetter to learn more about the role that Sensory Solutions can play in your reimbursement process.

If you have any further questions, please contact us. (408) 647-2084
